

# EFT Core Skills Training

## with George Faller

EFT Trainer, Supervisor and Certified Counselor, AAMFT Supervisor, LMFT (NY)

Core Skills training for counseling professionals provides an “in-depth” experience in learning the skills essential to the practice of EFT. EFT Core Skills training takes place over four, 2-day sessions throughout a 5-month period. Twelve hours of training will be completed per session, for a total of 48 continuing education credits towards certification as an EFT Therapist. Each training module is comprised of a didactic presentation, trainee session material, and a “live session” with an EFT Trainer. Core Skills participants are required to have completed an EFT externship and be willing to present their own work through audio/videotape to the group.
